**Geographical Dimensions of Islamicjerusalem** Khalid El-Awaisi 2009-03-26 Islamicjerusalem has been at the heart of the Muslim religion from its early days. "The Geographical Dimensions of Islamicjerusalem" brings new dimensions and horizons to the relations between Islam and this Holy region. It delves into topics that have been overlooked in much of modern scholarship. It reinvestigates concepts and translates them into something that can be understood both physically and geographically. This work is an attempt to shed light on some of these concepts and the way they were perceived in early and later centuries. It lays the foundation and raises more questions for further scholarship. The book introduces the concept of Islamicjerusalem and the background development of this new field and presents some of the latest research to the reader. One of the main contributions of this book is the unveiling of the fact that Bayt al-Maqdis (Islamicjerusalem) is not a single city only; rather this work testifies to its long existence as a large spiritual region encompassing various cities, towns and villages. The book also contrasts the region of Islamicjerusalem with the sacred regions of Makkah and Madinah; particular attention is paid to the physical similarities between the Ka'bah and al-Aqsa Mosque. A further asset of this book is the study of the various names and their connotations in early and later periods of Muslim rule. These evocative ideas and findings are supported with explanatory maps and diagrams.

*Who's Who in the Arab World 2007-2008* Publitec Publications 2011-12-22 Who's Who in the Arab World 2007-2008 compiles information on the most notable individuals in the Arab world. Additionally, the title provides insight into the historical background and the present of this influential and often volatile region. Part I sets out precise biographical details on some 6,000 eminent individuals who influence every sphere of public life in politics, culture and society. Part II surveys the 19 Arab Countries, providing detailed information on the geography, history, constitution, economy and culture of the individual countries. Part III provides information on the historical background of the Arab world. Indexes by country and profession supplement the biographical section. A select bibliography of secondary literature on the Middle East is also included.

*Wireless Internationalism and Distant Listening* Simon J. Potter 2020-05-21 During the 1920s and 1930s the new medium of radio broadcasting promised to transform society by fostering national unity and strengthening and popularising national cultures. However, many hoped that 'wireless' would also encourage international understanding and world peace. Intentionally or otherwise, wireless signals crossed borders, bringing talk, music, and news to enthusiastic 'distant listeners' in other countries. In Europe, radio was regulated through international consultation and cooperation, to restrict interference between stations, and to unleash the medium's full potential to carry programmes to global audiences. A distinctive form of 'wireless internationalism' emerged, reflecting and reinforcing the broader internationalist movement and establishing structures and approaches which endured into the Second World War, the Cold War, and beyond. This study reveals this untold history. Wireless Internationalism and Distant Listening also explores the neglected interwar experience of distant listening, revealing the prevalence of listening across borders and explaining how individuals struggled to overcome unwanted noise, tune in as many stations as possible, and comprehend and enjoy what they heard. The volume shows how radio brought the world to Britain, and Britain to the world. It revises our understanding of early BBC broadcasting and the BBC Empire Service (the precursor to today's World Service) and shows how government influence shaped early BBC international broadcasting in English, Arabic, Spanish, and Portuguese. It also explores the wider European and trans-Atlantic context, demonstrating how Fascism in Italy and Germany, the Spanish Civil War, and the Japanese invasion of China, combined to overturn the utopianism of the 1920s and usher in a new era of wireless nationalism.

*Egypt's Culture Wars* Professor of Arabic Literature Samia Mehrez 2008-04-01 This ground-breaking work presents original research on cultural politics and battles in Egypt at the turn of the twenty first century. It deconstructs the boundaries between 'high' and 'low' culture drawing on conceptual tools in cultural studies, translation studies and gender studies to analyze debates in the fields of literature, cinema, mass media and the plastic arts. Anchored in the Egyptian historical and social contexts and inspired by the influential work of Pierre Bourdieu, it rigorously places these debates and battles within the larger framework of a set of questions about the relationship between the cultural and political fields in Egypt.

*The Arabic Classroom* Mbaye Lo 2019-04-12 The Arabic Classroom is a multicontributor work for trainee and in-service teachers of Arabic as a foreign language. Collected here is recent scholarly work, and also critical writing from Arabic instructors, Arabists and language experts, to examine the status of the teaching and learning of Arabic in the modern classroom. The book stresses the inseparability of the parameters of contexts, texts and learners in the effective Arabic classroom and investigates their role in enhancing the experience of teaching and learning Arabic. The book also provides a regional perspective through global case studies and encourages Arabic experts to search for better models of instruction and best practices beyond the American experience.

**Arabic as One Language** Mahmoud Al-Batal 2017-12-04 For decades, students learning the Arabic language have begun with Modern Standard Arabic (MSA) and then transitioned to learning spoken Arabic. While the MSA-first approach neither reflects the sociolinguistic reality of the language nor gives students the communicative skills required to fully function in Arabic, the field continues to debate the widespread adoption of this approach. Little research or evidence has been presented about the effectiveness of integrating dialect in the curriculum. With the recent publication of textbooks that integrate dialect in the Arabic curriculum, however, a more systematic analysis of such integration is clearly becoming necessary. In this seminal volume, Mahmoud Al-Batal gathers key scholars who have implemented integration to present data and research on the method's success. The studies address curricular models, students' outcomes, and attitudes of students and teachers using integration in their curricula. This volume is an essential resource for all teachers of Arabic language and those working in Teaching Arabic as a Foreign Language (TAFL).

**Islamic Education in Britain** Alison Scott-Baumann 2015-08-27 The Western world often fears many aspects of Islam, without the knowledge to move forward. On the other hand, there are sustained and complex debates within Islam about how to live in the modern world with faith. Alison Scott-Baumann and Sariya Contractor-Cheruvallil here propose solutions to both dilemmas, with a particular emphasis on the role of women. Challenging existing beliefs about Islam in Britain, this book offers a paradigm shift based on research conducted over 15 years. The educational needs within several groups of British Muslims were explored, resulting in the need to offer critical analysis of the provision for the study of classical Islamic Theology in Britain. Islamic Education in Britain responds to the dissatisfaction among many young Muslim men and women with the theological/secular split, and their desire for courses that provide combinations of these two strands of their lived experience as Muslim British citizens. Grounded in empirical research, the authors reach beyond the meta-narratives of secularization and orientalism to demonstrate the importance of the teaching and learning of classical Islamic studies for the promotion of reasoned dialogue, interfaith and intercultural understanding in pluralist British society.

American Arabists in the Cold War Middle East, 194675 Teresa Fava Thomas 2016-07-06 This book examines the careers of 53 area experts in the US State Department's Middle East bureau during the Cold War. Known as Arabists or Middle East hands, they were very different in background, education, and policy outlook from their predecessors, the Orientalists. A highly competitive selection process and rigorous training shaped them into a small corps of diplomatic professionals with top-notch linguistic and political reporting skills. Case studies shed light on Washington's perceptions of Israel and the Arab world, as well as how American leaders came to regard (and often disregard) the advice of their

**Higher Education in the Gulf** Ken E. Shaw 1997 This book will be of value to those in the West and in the Middle East with an interest in the contemporary state of the higher educational system in the region and in comparative education in general. It concentrates on the Gulf, but the problems of control, development, curriculum and purpose in higher education are general throughout the Middle East. Its contributors are mainly academics working in universities in the Gulf region. Higher Education in the Gulf stresses the need for engagement with the problems of the Gulf States as developing countries and the roles which practical, locally-based research can play in promoting balanced, self-reliant development. For too long work in the West relating to the Gulf has concentrated on oil, military and political issues, and this book looks beyond these to the neglected areas of social, cultural and human capital aspects of modernisation. It is deliberately intended to suggest and promote research.

News 2.0 Ahmed Al-Rawi 2020-07-21 Offers fresh insights and empirical evidence on the producers, consumers, and content of News 2.0 The second generation of news—News 2.0—made, distributed, and consumed on the internet, particularly social media, has forever changed the news business. News 2.0: Journalists, Audiences and News on Social Media examines the ways in which news production is sometimes biased and how social networking sites (SNS) have *Islam, Highlights and Allegations* ws platforms that reflect users' preferences and worldviews. Drawing from empirical evidence, this book provides a critical and analytical assessment of recent developments, major debates, and contemporary research on news, social media, and news organizations worldwide. Author Ahmed Al-Rawi highlights how, despite the proliferation of news on social media, consumers are often confined within filter "bubbles." Emphasizing non-Western media outlets, the text explores the content, audiences, and producers of News 2.0, and addresses direct impacts on democracy, politics, and institutions. Topics include viral news on SNS, celebrity journalists and branding, "fake news" discourse, and the emergence of mobile news apps as ethnic mediascapes. Integrating computational journalism methods and cross-national comparative research, this unique volume: Examines different aspects of news bias such as news content and production, emphasizing news values theory Assesses how international media organizations including CNN, BBC, and RT address non-Western news audiences Discusses concepts such as audience fragmentation on social media, viral news, networked flak, clickbait, and internet bots Employs novel techniques in text mining such as topic modeling to provide a holistic overview of news selection News 2.0: Journalists, Audiences and News on Social Media is an innovative and illuminating resource for undergraduate and graduate students of media, communication, and journalism studies as well as media and communication scholars, media practitioners, journalists, and general readers with interest in the subject.

Efraim Karsh 2010-04-27 The 1947 UN resolution to partition Palestine irrevocably changed the political landscape of the Middle East, giving rise to six full-fledged wars between Arabs and Jews, countless armed clashes, blockades, and terrorism, as well as a profound shattering of Palestinian Arab society. Its origins, and that of the wider Arab-Israeli conflict, are deeplyrooted in Jewish-Arab confrontation and appropriation in Palestine. But the isolated occasions of violence during the British Mandate era (1920–48) suggest that the majority of Palestinian Arabs yearned to live and thrive under peaceful coexistence with the evolving Jewish national enterprise. So what was the real cause of the breakdown in relations between the two communities?In this brave and groundbreaking book, Efraim Karshtells the story from both the Arab and Jewish perspectives. Heargues that from the early 1920s onward, a corrupt and extremist leadership worked toward eliminating the Jewish national revival and protecting its own interests. Karsh has mined many of the Western, Soviet, UN, and Israeli documents declassified over the past decade, as well as unfamiliar Arab sources, to reveal what happened behind the scenes on both Palestinian and Jewish sides. It is an arresting story of delicate political and diplomatic maneuvering by leading figures—Ben Gurion, Hajj Amin Husseini, Abdel Rahman Azzam, King Abdullah, Bevin, and Truman —over the years leading up to partition, through the slide to war and its enduring consequences. Palestine Betrayed is vital reading for understanding the origin of disputes that remain crucial today.

**Engaging the Muslim World** Walter Douglas 2013-10-29 Public diplomacy supports the interests of the United States by advancing American goals outside the traditional arena of government-to-government relations. Since 9/11, with the rise of al Qaeda and other violent organizations that virulently oppose the United States, public diplomacy in Muslim-majority countries has become an instrument to blunt or isolate popular support for these organizations. Efforts in this direction complement traditional public diplomacy that explains American policies and society to foreign publics.
